crop rotations, the results of fertilizer treatment, etc.

In addition to a good line of speakers, some of the special features of farmers' week will be a "Community Sing" before each evening meeting, led by some one especially well qualified for this work; a live stock parade, and a power demonstration with tractors, a heavy draft horses. Farmers with teams and draft horses people will put on a multiple hitch demonstration. Men and women will hold joint sessions in the mornings and evenings and separate sessions in the afternoons.

The college dormitories will be thoroughly cleaned, and the rooms, with mattresses and covers, will be available to visitors at a cost of 50¢ for the three days. Those expecting to come should bring necessary toilet articles with them, as the college does not furnish these. Meals will be served at the college dining hall at \$2.50 per day, thus making the cost of visiting the Farmers' Institute less than \$3.00 per day for board and lodging. One of the barracks, and more than one, if necessary, will be set apart for the exclusive use of the women, with a special room for the use of each of the visitors as may be accompanied by their wives. There are shower baths and toilets in each barracks and everyone can be assured of a comfortable place to stay while here.

Charlotte Lyne

I am just writing a few lines to the "little folks" to let them know that beautiful bair of three the loveliest kittens, just like little balls of gray fur and are just beginning to play with each other. Beautiful is very proud of them. I'll tell you their names next time.

I have a beautiful little yellow kitten—Tedy, Jr. Will tell about him some time.

Tester looks very "aristocratic" with his collar and tag. One foot has weaned Little Boy; he is most large enough to crow; he is a fine dominie with a beautiful double comb which looks like a bright-red rose.

Uncle Josh lacked to have during the long rainy season. He said "he knew when it was time to turn the soil" and was right again (I mean it). He is a good boy and will be a good help to his mother.

Several persons who do not have cars have expressed a desire to go and have asked me to find seats in cars for them. If you want to go, too, and cannot find a seat, let me know and I will try to locate one for you.

All car owners who have told me of their intention of going have said there would be no other charges to their passengers than the gas and oil bill, which is the distance is not over 12 miles.

W. H. BURKE,
County Agent

STATES FARMERS' INSTITUTE TO MEET AT BLACKSBURG

The annual summer meeting of the State Farmers' Institute will be held at the Virginia Polytechnic Institute, Blacksburg, August 13, 14 and 15.

Here are some of the advantages of holding the meeting of the State Farmers' Institute during the summer and making the site a college of agriculture a permanent place for the summer meeting:

First—Farmers are better able to leave their work in August than any other time of the year.

Second—The college dormitories are unoccupied in August and will be placed at the disposal of the farmers for the nominal sum of \$50 for the three days.

Third—There is apt to be less attendance because of bad weather, especially for the tractor demonstrations which will be an important feature of the week.

Fourth—The plots of the experiment station and the fields of the college farm will have growing crops on them, which will give opportunity for the study of different varieties of crops, the results of

crop rotations, the results of fertilizer treatment, etc.

Aunt Patsy said: "Josh ain't got no sense dem bees swarmed an come ar settle on tree here, an Josh made me heerd dat nigger pray an holler. I run an got be gun an tole Josh be still twell I driv em in de gun. I got de gun on Joshs nail, but he gawned round an run off. I knowed day was feared so fur day, I dont blame em, fur day stung him tel his hand was big as dat bee gun; an I didn't know he sting."

Read Lester B. Harvey's ad, the Grafton man.

The School Board is in session here today.

Miss Catherine Clement, of Newport News, is visiting relatives here.

Of course you have sown the turnip patch. If not, do it now. Keep your eyes on Appomattox and watch her grow.

Come out to the Courthouse to the good roads meeting August 9th.

Loafers, whether white or from without, are the bane of our existence.

Farmers are now killing the grass—the first chance this season.

Charlotte Lyne (Continued from page 2)

Now that's good for both. I hope these boys will forgive me for telling you. I don't like to be written about, but I couldn't help it this time.

Providence Baptist church will soon come out in a new building.

Mr. White Lucado has purchased a lot here and will build an eight room house.

Farmers are now killing the grass—the first chance this season.

Read Lester B. Harvey's ad, the Grafton man.

The farmers are quite anxious to thresh their wheat, as some of it was badly damaged by the recent rains.

Mr. Tom Robertson is doing splendid work with his new machine.

Mrs. Fannie Marks' son and daughter, at the home of their parents, Mrs. Lula Neal, and Mr. Percy Reynolds and Miss Lorene Reynolds have just returned from visiting their uncle in Roanoke.

Why such a scarcity of sugar through the country? Last year
